From the document: "Wilson Lumpkin and John Kennedy Commissioners appointed by the President of the United States under the Treaty with the Cherokee tibe of Indians, of the 29th December 1835, at New Echota in the State of Georgia, commenced the determination on spoliation claims as follows to wit."

In Your Classroom: Use this document to help students understand the events that led to the removal of the Cherokee.

- Give students the definition of spoliation: (n) the action of ruining or destroying something.
- Ask students to take a moment to make initial observations of the first few pages and give their best guess for the purpose of the document based on the opening paragraph and their background knowledge.
- Have students research <u>Wilson Lumpkin</u> on the New Georgia Encyclopedia. What were his views on Cherokee removal?
- Watch the short *Today in Georgia History* segment on the <u>Treaty of New Echota.</u>
- Split the list of spoliations up amongst your students and have them gather data on the amount of money and the type of property individuals claimed as spoliations. Have students compile their data to present the average money claimed and the typical types of property listed.
