

The Georgia Historical Society Biography Vertical Files Index

The GHS Biography Vertical File Index is a guide to the contents of the Biography vertical files maintained by GHS. Vertical files contain newspaper clippings, journal articles, and various published and un-published resources about a particular subject. Information on individuals names are listed in capital letters and highlighted is in individual files. Information on individuals whose names do not appear in all capital letters and highlighted is combined in group folders. Vertical files are accessible in the GHS research center reading room.

The GBS Notebooks listed as a See or See Also resource are an additional biographical source in the GHS research center reading room.
