

This week's [#MarkerMonday](#) highlighted Dr. Crawford W. Long and National Doctor's Day on March 30. Keeping with the medical theme, GHS invites you to take part in an online historical marker scavenger hunt exploring how Georgia's doctors and medical institutions shaped our state's past.

To get started, use the [Georgia Historical Marker Online Database](#) to find answers to the medical-themed questions! You can access the online database by following [this link](#). Once there, search all of Georgia's markers by keyword, location, region, time period, subject, and marker program to answer the following questions.

Once you complete the scavenger hunt, [check your answers here](#).

1. During the first surgery using anesthesia, what did Dr. Crawford W. Long remove from James Venable?
